Ocea Motioin Worksheets - Kiddy Math

If so, you probably noticed one kind of ocean movement- waves. What are waves, and what causes them? 2 Waves are energy that moves through the water. They are caused by wind and the pull of the moon's gravity on the earth. Some waves can be caused by earthquakes under the ocean. 3 Ocean waves begin as ripples on the earth's surface. Although it may seem that the waves are moving forward, they are really not.

Motion" worksheet, students watch the movie and respond to 23 fill in the blank questions regarding information from the documentary.

Bill Nye Lesson Plans & Worksheets | Lesson Planet

Tides are the periodic rising and falling of ocean waters caused by the gravitational forces of the sun and moon. The vertical motion of tides is accompanied by a horizontal movement of ocean waters called tidal currents. Oceanographers say that tides rise and fall, while tidal currents ebb (during a falling tide) and flood (during a rising tide).
